

# Aquatight Solar Controllers

## Aquasmart 5

The AquaSmart utilises its in built memory and recognises when the sun is shining, starting the system at the optimal time.

This ensures maximum heating efficiency saving money.

## The Smart Choice

The AquaSmart 5 is easy to operate with its large back lit LCD display, user friendly interface and robust construction making it the leading product of its kind. No nonsense codes ensures you are informed clearly and with no fuss.

This consumer led innovation answers all of your demands for a warmer pool that can be enjoyed for longer.

### **3 YEAR WARRANTY**
