AutoClear
The Clear Choice in Salt Chlorinators

Unique Auto-Clean Technology automatically cleans your salt cell

At last – a salt water chlorinator that's as 'set-and-forget' easy to use as it is reliable and effective.

AutoClear 'Gen 2' Automatic Salt Water Chlorinators use harmless salt to keep your pool ocean-fresh, crystal clear and low-allergenic.

The advanced AutoClear 'Gen 2' technology offers simple installation – simple programming and fully automatic operation and the unique Autoclean technology automatically cleans the cell to virtually eliminate maintenance.

AutoClear 'Gen 2' Benefits

- ✓ The ultimate in low maintenance – 'Auto Clean' technology automatically cleans the cell and virtually eliminates maintenance.
- ✓ A crystal clear, ocean-fresh, low-odour, low-allergy pool using natural salt.
- ✓ Easy to use – set the simple-to-program time-clock and AutoClear 'Gen 2' automatically runs each day.
- ✓ Dual Time Clocks – some models feature automatic programming of pool lighting.
- ✓ A model for every pool – domestic or commercial pools and spas, new pools or convert your existing system. AutoClear 'Gen 2' is compatible with pool heating and lighting systems.
- ✓ Low running costs – the average, running times for AutoClear 'Gen 2' are 6-12 hours in summer, 4-6 hours in autumn and 2-4 hours in winter.
- ✓ Fuss-free installation – connect the electronic cell to your pool plumbing, add the wall-mounted power pack with the control module and your AutoClear 'Gen 2' is up and running.

AutoClear 'Gen 2' Features

- ✓ **Computerised automatic control and display system** – easy to understand and operate
- ✓ **Variable chlorine output control** – easy adjustment of pool chlorine level
- ✓ **Circuit breaker and overload protection** – power surge protection avoids expensive repairs – push-button reset
- ✓ **Audio and visual alarms** – easy fault identification
- ✓ **Standard solid plate electrodes** – need less cleaning
- ✓ **Australia's most efficient and accessible cell** – advanced cell design for maximum water flow
- ✓ **Clear rectangular cell housing** – unique micro cell
- ✓ **Automatic overload protection** – over salting protection
- ✓ **Automatic low salt warning** – low salt level warning light
- ✓ **Battery backup** – LCD timers
- ✓ **Multi output pool light transformer** – adapts to 12V, 24V or 32V output.

Dual Time Clocks – Some models feature dual time clocks, one to control the unit, the second provides automatic programming of your pool lighting to maximise the night time ambience of your pool.

Models

Standard	Auto-Clean
G2-S150	G2-A150
G2-S200	G2-A200
G2-S250	G2-A250

Cell Options

Chlorine Output (Gas) Grams/hr (100% Chlorine)			
G2-S150	15	G2-A150	15
G2-S200	20	G2-A200	20
G2-S250	25	G2-A250	25

All models are available with Time clock (T) and Time clock (TL) pool light transformer.

Australia's Best Warranty

3-year in-factory warranty on all parts and labour and an additional 2-year pro-rata warranty on AutoClear 'Gen 2' cell electrodes. Commercial units have a 1-year warranty on the power supply and cell electrodes from date of installation.

Note: Warranties are not transferable.
