- **Cleans All Types of Pools & Spas**
- **No Messy Hoses or Additional Pumps**
- **Reusable Filter Bags**

Clean The Entire Pool In Minutes Or Spot Clean In Seconds

POOL BLASTER®
AQUA
BROOM

Aqua Broom has extraordinary power for thorough clean-ups of virtually any water applications ... kiddie/wading pools, spas, hot tubs and fountains. A great spot cleaner for traditional above ground and inground pools, the powerful Aqua Broom uses five standard D-Cell batteries providing up to 3 hours of cleaning time (on average a set of batteries will last almost an entire season). No charging is required for quick clean ups giving the ultimate convenience of use.

POOL BLASTER®
CATFISH

This mighty mite with its High-Flow pump tackles the largest of messes in any pool, spa or hot tub. The lightweight, cordless Catfish is very convenient to use and its Max-Cone™ Technology compacts all the dirt so more fits in the Filter Bag.

POOL BLASTER®
MAX

Extra power for deep cleaning with its Super-High Flow pump located in the machine. The suction lasts longer since the bag holds more dirt and debris, tackling the largest of messes in the pool. The most effective way there is to clean a pool or spa. Easy empty bag so hands do not touch the dirt. Pool Blaster MAX is wall mountable for grab and go convenience.

POOL BLASTER®
MAXCG
COMMERCIAL GRADE

This Commercial Grade cleaner for any residential or commercial pool uses an Ultra-High Flow output pump and provides 33% more suction than the Pool Blaster MAX. The integrated spot cleaning/corner nozzle makes sure that every inch of the pool is clean. The Pool Blaster MAX CG contains its own easy-to-clean, reusable, large capacity filter bag.
